# E4000 Series Physical Security Appliance

## Turnkey hardware and video management software solution

**SENSTAR**®

## FEATURES AND BENEFITS

- Powered by Senstar Symphony intelligent video management software (VMS)
- Small fanless form factor with hot swappable 3.5" hard drive
- Supports installations of up to 32 cameras
- Wide range of supported camera manufacturers
- Integrated I/O
- Support for PC and embedded video analytics
- View options include Windows, web, and mobile (iOS, Android) clients
- Onboard DHCP and SMTP servers simplify the configuration of isolated camera networks
- Flexible installation options, including wall-mount, DIN rail, and desktop

1. USB ports
2. Reset
3. HDMI port
4. DIO
5. USB ports
6. Ethernet ports

The E4000 physical security appliance (PSA) is a complete video surveillance management system in a box. It combines compact, purpose-built hardware with the Senstar Symphony Video Managment Software (VMS) and is ideal for space-constrained environments like retail, gas stations, and restaurants.

### Easy to Use

The E4000 Series PSA brings together the industry's best video management software, native analytics support, and reporting all built into a single, easy to use device.

### Symphony Software Built-in

Symphony 7 is an innovative, open platform for video management, video analytics, system integration, and alarm management. Symphony 7 offers a feature-rich, easy-to-use interface and incorporates IT-friendly features to make administration and remote health monitoring simple and scalable.

### Flexible Deployment

The E4000 offers extremely flexible deployment options. Low heat production, expandable storage using NAS, and small form makes the PSA the perfect solution for installations where space is limited and a small hardware footprint is a must.

The onboard Intel® Celeron® processor provides stable performance with very low heat generation and minimal cooling requirements, resulting in improved stability and longevity.

A tough aluminum case, with heat dispersing fins draws heat away from the processor, enables the system to operate in environments not suitable for commercial off-the-shelf PCs. To provide installation flexibility, the E4000 can be wall or rack mounted ensuring easy placement in any scenario.
### Add-on Products

More than just a standalone solution, the E4000 Series PSA opens the door to a dynamic ecosystem that revolutionizes security management. Seamless integration with Outdoor Object Tracker™, Thin Client™, and Senstar Enterprise Manager™ brings centralized management of an entire security system together.

**DATASHEET**

| E4000 Specifications | | | | | |
|---|---|---|---|---|---|
| Model | E4000 | E4010 | E4020 | E4040 | E4060 |
| OS | 64 GB mSATA | | | | |
| Video storage | * | 1 TB | 2 TB | 4 TB | 6 TB |
| VMS | Senstar Symphony Standard | | | | |
| Base licenses | 2 | 4 | 8 | 16 | 24 |
| Ethernet | 2x GbE | | | | |
| USB | 4 | | | | |
| Integrated I/O | 8/8 | | | | |
| Network protocols | DHCP, SMTP, SNMP | | | | |
| Extended storage | With NAS | | | | |
| ONVIF | Yes | | | | |
| Operating temperature | 0 to 40℃ | | | | |
| Dimensions (mm) | 268 W x 174 D x 44 H | | | | |
| Weight | 3.1 kg | | | | |
| Input voltage | 12VDC | | | | |
| Compliance | CE, FCC, RoHs | | | | |
| Mounting kit | Wall, DIN-Rail included | | | | |
| Warranty | 3 year hardware and software | | | | |
